Vyndamax® (tafamidis) 61 mg capsules

VynAssist

For Medicare patients

Understanding VYNDAMAX costs and financial assistance options

Under Medicare Part D, what you pay out of pocket for covered prescriptions in 2027 is capped at $2,400, no matter which medicines you take.

Specialty medicines often reach the cap at the first fill of the year, and after that you pay $0 for ALL of your Medicare Part D prescriptions, including VYNDAMAX.

Financial support options are available to eligible patients

Medicare Prescription Payment Plan (M3P)
Spread out costs through monthly payments to meet your out-of-pocket drug cap for the calendar year*

Third-party financial support
Financial support information from resources that are wholly independent from Pfizer

Pfizer Patient Assistance Program (PAP)†
May be able to help eligible patients who are uninsured or have government-issued insurance

*There is no fee to join the Medicare Prescription Payment Plan. The program does not cover your monthly premium. You need to opt-in to the payment plan before filling your prescription. Please know you may also leave the program any time during the plan year. †For eligible patients when other financial assistance options aren't available. Patients are required to apply for and provide proof of denial prior to being considered for enrollment in the Pfizer Patient Assistance Program.

Connect with a **VynAssist Access Care Manager to learn more** at 1-888-863-1177 (Mon-Fri, 8 AM-7 PM ET)

VynAssist

You can sign up for ongoing support from an **Access Care Manager** at myVynSupport.com

Once you enroll, your Access Care Manager can:

- Help you understand your insurance coverage, your expected out-of-pocket costs, and how to fill your VYNDAMAX prescription
- Help you understand the most appropriate financial support options
- Coordinate with your healthcare team as applicable to help support your access to VYNDAMAX

Connect with a **VynAssist Access Care Manager** at 1-888-863-1177 (Mon-Fri, 8 AM-7 PM ET)
